

HAVEN

Her money, finally hers.

The financial co-pilot for the woman whose life just changed.

THE MOMENT EVERYTHING CHANGES

**"I never handled the money.
Now it's all on me -
and I don't know where to start."**

A divorce. Becoming a single mom. Retiring on an income that's different every month. Overnight, she's the CFO of her own life - with no playbook.

* Newly divorced - Suddenly single mom - Newly retired - Recently widowed

THIS ISN'T A NICHE - IT'S A WAVE

Trillions are moving to women. Most have never been in the driver's seat.

\$30T

U.S. financial assets women are expected to control by 2030 - a near-tripling this decade.

90%

of women will be solely responsible for their finances at some point in their lives.

~673K

U.S. divorces a year - 'gray divorce' (50+) has roughly doubled since 1990.

THE PROBLEM

She doesn't need a lecture.
She needs a first step.

Spreadsheets assume she already knows her numbers. Advisors cost money she's afraid to spend. Generic budget apps don't know she just lost half her income - and gained all the decisions.

MEET HAVEN

A calm, guided path from overwhelmed -> in control.

- * 1 - Get organized. Find the documents, answer the questions.
- * 2 - Every dollar a job. A living, automated budget.
- * 3 - Protect & plan. The right experts, right on time.

STEP 1 - GET ORGANIZED

Know what you have - before you decide anything.

- * A guided checklist of exactly which documents to find - accounts, statements, policies, the divorce decree, the will.
- * Plain-language questions that turn scattered paperwork into a clear picture of income, assets, and obligations.
- * A private, secure vault - all in one place when she, or her attorney, needs it.

STEP 2 - EVERY DOLLAR A JOB

Paycheck hits. Haven tells her what to do with each dollar.

- * Turns her real numbers into a living budget - not a static spreadsheet.
- * Connects to her bank, cards, and accounts to move and track money automatically.
- * Built for irregular income - every paycheck is re-allocated to the plan.
- * Example: +\$2,840 => Essentials \$1,420 - Kids \$540 - Emergency \$430 - Debt \$280 - Guilt-free \$170.

STAY ON TRACK

When she drifts, Haven reminds her why she started.

Try to spend off-plan and Haven gently steps in - not to scold, but to reconnect the choice to her goals. "This \$260 is headed out of your Emergency fund - your 3-month safety net. Pull from guilt-free instead?"

STEP 3 - PROTECT & PLAN

The right expert, exactly when she needs one.

- * Divorce attorneys - vetted help through the transition.
- * Probate & estate - wills, trusts, and what comes next.
- * Insurance brokers - coverage gaps, closed.
- * Financial planners - for when she's ready to grow it.

HAVEN

Trillions, for the first time, alone.

Millions of women are about to control their financial lives
for the first time. Haven is the safe place they'll start.
Organize. Automate. Protect.

Let's give her a Haven.
